

RAFAEL VALBUENA RESTREPO

Frontend & Full Stack JavaScript Developer | React • TypeScript • Next.js • Node.js

Medellín, Colombia | English C2 | GitHub: github.com/rafaelval | Portfolio: portafolio-rafaeldev.web.app

PROFESSIONAL SUMMARY

Frontend Developer specializing in React and TypeScript, with experience building administrative dashboards, e-commerce platforms, quoting systems, and modern web applications. Experienced in authentication, CRUD operations, state management (Redux and Zustand), REST API integration, technical documentation (Mintlify), and scalable interface development. Full Stack (PERN) background with knowledge of Node.js, Express, PostgreSQL, MongoDB, and Firebase.

TECHNICAL SKILLS

Frontend: React, Next.js, TypeScript, JavaScript, Redux, Zustand, React Router, Tailwind CSS, HTML5, CSS3

Backend: Node.js, Express.js, REST APIs, Socket.io

Databases: PostgreSQL, MongoDB, Firebase, MySQL

Tools: Git, GitHub, Postman, Auth0, Vercel, Mintlify

Methodologies: Agile, Scrum

FEATURED PROJECTS

AUTH Dashboard

- Built an administrative dashboard featuring authentication, protected routes, CRUD operations, internationalization, and session persistence.
- Implemented modular architecture, reusable components, and Zustand state management.
- Created professional technical documentation using Mintlify.

Villa Buena E-commerce

- Developed a complete e-commerce platform with product catalog, filtering, shopping cart, checkout workflow, and authentication.
- Implemented scalable frontend architecture and centralized state management.
- Produced professional Mintlify documentation.

Integrar CCTV Quote Builder

- Built a quotation platform integrated with APIs and Firebase services.
- Implemented Redux-based global state management and reusable component architecture.
